

TURMERIC

TURMERIC INTRODUCTION

Turmeric has been used in Asia for thousands of years and is a major part of Ayurveda, Siddha medicine, traditional Chinese medicine and Unani. It was first used as a dye, and then later, for its supposed properties in folk medicine.

The quality of Better World Naturals Turmeric starts in our fields, in the Sichuan Provinces of China and Myanmar. Here, the air and water are clean and provide the ideal environment to control cultivation from seed to harvest. Our process allows for full traceability and transparency. Our agronomists are imbedded in the fields and work with farmers to control and monitor the seedings, cultivate the plants and harvest the rhizome. Rhizomes are transfer to our extraction partner and received in by our imbedded QA and QC personnel, ensuring clearly defined traceability. We monitor the entire extraction and formulation process, enabling us to provide full traceability from field to lot number.

THE BETTER WORLD DIFFERENCE

TRACEABILITY

Our team personally tracks and records raw materials from field to factory for each and every lot.

AUTHENTICITY

We guarantee authentic curcumin from natural turmeric only. PhytoPrint pack is available as verification.

TECHNOLOGY

Specialized micro-capsulation techniques make Turmeric + Formulation performs high bioavailable.

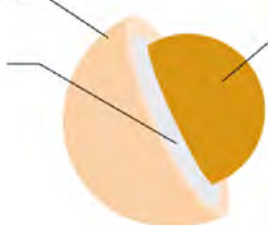

PRODUCT LINE

Turmeric Extract 95%	Powder	Functional Ingredient	Ethanol Soluble		High level of curcuminoids Certified Authenticity
Turmeric + Extract 25%	Powder	Functional Ingredient	Water Soluble		High bioavailability (>10x) Odorless
Turmeric + Extract 10%	Powder	Functional Ingredient	Water Soluble		High bioavailability (>10x) Odorless
Curcumin 2.5% WSC	Liquid	Natural Color	Water Soluble		Transparent Clean label (intuitive nutrition)

TURMERIC + IMPROVED BIOAVAILABILITY

Maltodextrin

Denatured starch

Curcumin

- Microencapsulation Technology
- Improved bioavailability scientifically tested (Animal trial)
- Hydrophilic Surface & Inner cavity
- Curcumin Content: 10%, 20%, 25%
- Particle Size: 300-600 nm*
- Non-Sensitized Carrier

Note: * Not considered nanotechnology

AUTHENTICITY CERTIFICATION: PHYTOPRINT TEST PACK

CERTIFICATES
